What We Do?

UWO builds advanced but easy-to-use digital solutions for:

- Artificial Intelligence (AI) Tools
- Business Automation
- CRM & Workflow Systems
- AI Agents & Chatbots
- Web & App Development
- Cloud Integrations & Data Systems
- Enterprise Productivity Tools

We focus on solutions that save time, reduce human workload, and improve business efficiency using AI + automation.

Page 5

Our Vision

To create technology that feels simple, intelligent, and human■aligned.

UWO aims to become a global leader in providing AI ecosystems that empower individuals, teams, and organizations.

We believe the future belongs to companies that combine:

- Intelligence
- Consciousness
- Automation
- Alignment
- Human understanding

Page 6

Our Mission

- To make AI accessible, useful, and practical
- To build platforms that bring together tools, workflows, and intelligence
- To support businesses with systems that reduce effort and increase clarity
- To innovate continuously and create long-term value

Core Principles:

- Simplify Intelligence
- Empower Businesses
- Automate Effort
- Human-Aligned AI

Page 7

AISA – Your AI Super Assistant

AISA (AI Super Assistant) is not just a chatbot — it is the interface layer of the UWO ecosystem.

It transforms the “Fragmented Mind” of a corporation into an Integrated Intelligence System.

Key Capabilities:

- Unified Command Center (Single UI)
- Intent-Based Agent Routing
- Multi-Session Context Memory
- Integrated Workflow Execution (Actionable AI)
- Real-Time Data Processing (Low-Latency Inference)

AISA turns thousands of fragmented tools into one powerful conversation interface and can reduce operational complexity by up to 70%.

Flagship Project – AI Mall

AI Mall is UWO's upcoming global platform — an AI marketplace, automation hub, and agent ecosystem.

Users will be able to:

- Use multiple AI tools in one place
- Automate business tasks
- Create custom AI agents
- Connect CRM, ERP, WhatsApp, and email
- Install apps from a unified AI marketplace

AI Mall is designed to become the App Store of the AI Age.

Page 9

Why Choose UWO?

- Strong foundation in AI & automation
- Clean, simple, modern product design
- Scalable digital solutions
- Commitment to long-term innovation
- Customer-first approach
- Reliable support and training

Page 10
